#### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Bill Dippert on June 8, 2001 and on June 18, 2001.

The application has been amended as follows:

-In claim 63, Jine 1, replace the words "the desired change" with the statement "the variation in cardiac muscle contraction",

-In claims 64 and 65, line 1 of each claim, replace the words "the desired change is an increase" with the words "the variation in cardiac muscle contraction is followed by

an increase"

Art Unit: \*\*\*

-In claims 66 and 68, line 1 of each claim, replace the words "the desired change is a change" with the words "the variation in cardiac muscle contraction is followed by a change",

-In claims 81-83, line 4 of each claim, add the words "using a non-excitatory electric field" after the term "Right Ventriculum", and

-In claim 85-line 1, replace the term "the change" the words "the variation in cardiac muscle contraction".

#### Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

As written, the Examiner could find no prior art references which show or teach the applicant's method of modifying heart activity wherein a "non-excitatory" electric field is applied to the Right Ventriculum in order to cause a variety of desired changes.

All remaining claims having been allowed, formal drawings are now required.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
